Note Regarding Concert Photos and Recording:

Please help the students create their best performance by taking concert pictures when the applause begins, as camera flashes and clicks may be distracting to students on the stage. The conductors will also allow time for photo opportunities at the conclusion of each group's performance.

Due to copyright and licensing restrictions, there will be no CD of concerts available from the camp. However, parents and friends may record any of the concerts on video or audio for your own use. We ask that video cameras and other recording devices be operated in a way that does not disturb other listeners or the students on stage.

RETURNING HOME, SATURDAY, JULY 25

After the concert, you may pick up your child at his/her dorm. Please wait in the lobby area rather than going to the student's room. This will avoid hallway congestion and make the checkout process go quickly. Parking is limited in the dorm areas, so please be patient. We ask that you wait until after the concert to check out. Our staff will be busy before and during the concert but will be ready to get you on your way after the music is done!
