SEE YOU THEN!

Every year, LI organizes 2 ethnic dinners, one in the Fall and the other in the Winter. The purpose of this ethnic dinner is to celebrate and savor foods of different cultures; thus it is an event that is open to the whole campus. International students would typically invite their friendship families to this event as well.

This Ethnic Dinner is a wonderful opportunity to explore the diverse foods as if you were really traveling across the "Silk Road!" If you want to have an experience of your life, this Ethnic Dinner should definitely not be missed!

I encourage all of you to come to this eclectic dinner, and invite your **friends, roommates, host families, professors!** Once again, this event is **open to the whole campus!**

att: international students do not need to sign up for their host families. Tim Schmidt will be confirming their attendance.
