

Senior Project Proposals

The Senior Project is a cumulative project that reflects the work you've done while here at LU. While a wide variety of options are still available as valid senior projects, because of the increase in requests for production space, we may not have enough open "slots" for all seniors. To keep our focus on the cumulative and pedagogical purposes of the senior project requirement, students interested in using Theatre Department spaces need to submit a proposal addressing the items listed below by the end of Term II. Students pursuing other projects can use this proposal, minus the request for space, as they discuss their project with their potential project advisor.

Your proposal should include:

- The Requirements/Challenges of the Project including Impact on/Intersection with the Department

- Your Preparation (course & production work) that has readied you for the Requirements/Challenges of this project

- What you Hope to Gain (artistically, personally, etc.) from working on this project

- Request for Space including preferred Term and special circumstances
