

# Classroom projects completed summer 2011

## Shattuck 163, Briggs 416, & Cloak Theatre

- *converted to new smart classroom*
  - ceiling-mounted projector
  - wall-mounted controller
  - document camera [SH 163]
  - desktop computer, laptop input, DVD/VCR player, media switcher, all housed in a custom-built cabinet [SH 163 and Cloak]
  - VGA/audio and aux video input plates only (not enough space at front of room to add a dedicated AV cabinet) [BR 416]

## Wriston Auditorium

- existing AV system gutted and new wire pulled between booth and front of room
- replaced projector with a professional, high definition, widescreen projector
- replaced existing amps and speakers
- replaced DVD player with Blu-ray player
- new network-based Crestron components and control system added to booth and front of room
- *screen to be replaced in December 2011*

## Briggs 421 (Stats Lab)

- *enhanced with:*
  - new AV control system
  - added speakers and DVD/VHS playback capability

## Stansbury Theatre

- added booth-mounted projector, stage laptop input plate, and Blu-ray player

## Briggs 420, 422, and Steitz 128

- replaced projector with a new, high definition widescreen projector; projector in ST 128 is 1080p capable.

## Document Cameras

- added to Briggs 119, Briggs 420, Main 401, Memorial 118, and Youngchild 041

## Classroom technology statistics

All classrooms are now equipped with video projection technology! This does *not* include computer labs, art studios or science labs—spaces that we should begin to consider in the future.

See the Instructional Technology web site for more details:
