GRADE POINT AVERAGES:

The degree grade point average includes all work done at Lawrence and in affiliated off-campus programs. A student must earn a 2.000 degree grade point average to qualify for a degree. The composite grade point average includes all college work of which we are aware and is used in determination of honors at graduation, selection for awards and prizes, and election to honorary societies.

REPEATED COURSE POLICY:

Students may repeat courses in which a grade of F is earned; the original grade is retained in the composite grade point average, but is removed from the computation of the degree grade point average and replaced with a new grade for the course. Repeated courses are noted on the transcript. Course numbers for music lessons, ensemble study, tutorial and independent study listings, and a small number of courses in other subjects may appear on a transcript more than once, but the nature of the course implies a change in content for each session.

ACADEMIC FORGIVENESS POLICY:

Students who are re-admitted to Lawrence University after being required to withdraw for unsatisfactory progress may request to have courses with unsatisfactory grades expunged from their records. All courses with grades of D- and below are expunged. The credits and grade points for expunged courses are excluded from total credit earned toward the degree and from the computation of the degree grade point average. These courses are, however, retained in the computation of the composite grade point average. A notation about any expunged courses appears on the transcript and an itemized record of the courses is retained as part of the student's overall permanent academic record.

ELIGIBILITY TO RE-ENROLL: Students are eligible to enroll unless otherwise noted on the transcript.

COMPETENCY AND DIVERSITY: As part of the new general education requirements effective Fall Term 2001, the university faculty has designated certain classes as meeting competency and diversity requirements. Symbols will appear in the "Comp" column following the course number for classes so designated. Symbols: G – global diversity, D – dimensions of diversity, A – B.A. foreign language competency, M – B.Mus. foreign language competency, Q – quantitative and mathematical reasoning, S – speaking intensive, W – writing intensive.

REQUIREMENTS FOR GRADUATION:

Fall 2001 to present – a minimum of 216 units for the B.A. or B.Mus. degrees; a minimum of 270 units for the five-year B.A./B.Mus. program
Fall 1962 to Fall 2001 – a minimum of 36 course credits for the B.A. or B.Mus. degrees; a minimum of 45 credits for the five-year B.A./B.Mus. program
Prior to Fall 1962 – 120 semester hours

CONVERSION OF ACADEMIC RECORDS AND TRANSCRIPT FORMAT:

During the fall term of 2001 the university converted to a new academic records system. As part of this conversion, course numbers were changed to 3 digits and the credit scale was changed from a standard course valued at 1 credit to 6 units. Academic records for all degree-seeking students in attendance during and after the conversion term have been changed to the new format. Records for non-degree students and graduates returning to take additional courses will be converted as practical, but in some cases may show academic work in both formats. Questions should be directed to the Registrar's Office (920-832-6578).
