2007 Student Evaluations of Clickers

*Who:* 116 students  
*What:* 5 courses in the natural sciences (biology, chemistry, and physics)  
*When:* winter and spring terms, 2007

These four questions were asked in class (using clickers) near the end of the course. Students do not purchase nor are they assigned clickers at Lawrence, so all student responses are anonymous.

### Question 1
1. Student response systems (Clickers) facilitate the learning process.

### Question 2
2. Clickers help me stay engaged in the subject matter.

![Bar chart showing responses to question 2](chart2.png)
3. I would recommend the use of clickers for other courses.

4. I like using the clickers.
