THINGS TO DO IN THE SPRING

1. Map your walks and walk somewhere new
Check out the Map my Walk App. https://www.mapmywalk.com/app/
This free app uses your phone’s built in GPS and you can use this to explore different places in Appleton.

2. Go fishing
http://appletonparkandrec.org/parks,-pavilions-and-trails/parks-recreational-areas/appleton-memorial-park-pond-fishing. This website gives you information about the Appleton park and Recreation center if you have an interest in fishing or other outdoor activities.

3. International food restaurants
If you are looking for some walkable distance restaurants that has international food, these are some of the options for you to consider. Mai’s Deli, Bowl 91, Basil Café.

4. Canoeing in Appleton
Appleton Locks Paddle. Kayak your way through the locks of Appleton, witnessing unique wildlife, historic paper industry sites, and amazing developments along the water.
http://www.wisconsinguides.net/southeast/canoeing-fox-river-272.html

5. LUaroo
Is a music festival usually held outdoors in the quad. This festival features numerous musicians or bands performing over a period of a few days during Spring Term.
LU FOOD RECOVERY

Have you ever thought about how much food we are wasting everyday?
Have you ever thought about how much change you can make by recovering several pans of food?

JOIN FOOD RECOVERY NETWORK TO FIGHT FOOD WASTE WITH US

We meet on every Monday, Tuesday, and Wednesday at 9:00PM to recover food in Andrew Commons’ kitchen!

I.S.S. STUDENT SPOTLIGHT: DINARDO RODRIGUEZ

Year: Junior
Major: Government [International Relations]
Country: Dominican Republic
Career Aspiration: My career aspirations would be something in the realm of global politics just because it interests me the most and is most related to my area of study.
Why did you choose Lawrence? My track with Lawrence was a little different than most other International Students because I am also a Posse Scholar, and given the way the Posse process works its more so that Lawrence chooses you after a series of interviews and prerequisites. But I was always interested in Lawrence because of its size and the inter-disciplinary ability of honing in your interest with your studies.
How has your adjustment to the US and the university been? I’ve lived in New York for a few years before coming to Lawrence so I think by the time I started university I was already used to US culture. But the biggest shock coming into the US when I did was the small details in the day-to-day life that might go unnoticed like not using the 24 hour clock, using the different standards of measurement, or needing a medical prescription for antibiotics (I’ve just discovered this today). I think out of all the countries I have lived in the past the one thing that has remained consistent is that I’ve always lived in large cities, which coming to university in Appleton Wisconsin has been the largest shock.
What is one of the most memorable moments during your years here at Lawrence? My most memorable time at Lawrence has not been spent at the Lawrence campus but with Lawrence students around the world. My friends and I just got back from a trip to Jamaica through a Lawrence program led by Prof. Skran which has been pretty memorable. Before that some of my friends also went to China with the Sustainable China program which was amazing!
What are you involved with at Lawrence? LU Judicial Board, Career Services, I volunteer as a LARY Buddy with Mozambiquan kids, tutoring.
Do you have any plans yet for life after Lawrence? The more and more I get deeper into my studies the more I am considering graduate school post-graduation which is a sad reality -- but I have no definite plans.
Do you have any advice for the underclassmen? Be honest with yourself, your interests, and your passions to make the most out of your experiences here at Lawrence!
