BRILLIANCE AWAITS.

Lawrence University
Appleton, Wisconsin
At Lawrence University, we speak of light often: illumination, brilliance, *lux*.

You have something great to offer the world—your own light.

And we will provide you with unparalleled opportunities to shine more brilliantly.

We believe that the pursuit of truth and beauty is not a competition. Discovery should never feel cutthroat or exclusive or unattainable. Lawrentians believe that creativity, ideas—sparks of genius—are meant to be shared. Dissected. Celebrated. Together.

We believe that the more intellectual explorers and creators we can gather in one place, the better.

Even better? Pair them with a professor (or two) and watch the light they each bring burn even brighter.

Even better than that? Create an environment and support system in which exploration is encouraged and radical detours are welcome—and where students who already know what they want can blaze their trails faster.

That is why Lawrentians, who live in major cities and small towns around the world, succeed in meaningful careers, brightening the world around them.

*The points at which light intersect are always brighter than any individual light.*
Your professors—master scholars, artists and teachers—will inspire you with challenging academics in some of the most intimate learning environments in the United States, allowing you to engage deeply with your coursework and your fellow classmates at a level that is rare in American higher education.

Thriving in their lives after Lawrence ...

Within six months of graduation, Lawrentians have found themselves ready for a rapidly changing world. But success lasts well beyond that first postgraduate experience. Lawrentians soon discover that their education prepared them to lead rich, interesting and meaningful lives ... for the rest of their lives.

We reviewed the past few years’ worth of our graduates and connected what they studied (the left side of the graph) with the fields they entered immediately after graduation (the right side of the graph). Majors at Lawrence will prepare you to pursue many different paths.

MID-CAREER SALARIES
Ten years after graduating, Lawrentians earn salaries that place them in the highest group along with the nation’s other top-ranked liberal arts colleges.

GRATITUDE
Lawrence alumni support their alma mater at a rate exceeded by few colleges in the country. Our over $400 million endowment (thanks to that generosity) supports an extraordinary learning environment.

PH.D. PRODUCTION
According to the National Science Foundation, Lawrentians earn Ph.D.s in science, health fields and engineering at one of the highest rates in the U.S.

POSTGRADUATE AWARDS
Every year, Lawrence sends graduates all over the world through prestigious postgraduate scholar programs such as Fulbright, Truman and Udall, as well as a one-year “wander year” with the Watson Fellowship.

MEANINGFUL LIVES
According to the Princeton Review, Lawrentians report, at a rate that exceeds their peers, that their jobs have meaning and make a difference.
The greater Appleton area is big enough to offer plenty of options that you would find in much larger cities, but small enough to be engaging without being overwhelming.

SOMETIMES where you learn IS JUST AS IMPORTANT AS what you learn.
