We live in a fast-changing world that brings us many surprises. When a crisis breaks out, such as it did last year when Russia moved against Ukraine, Americans are faced with hard choices, and little time in which to make those choices. Ambassador Murray will offer a glimpse of how such choices are made, whether they relate to the sudden outbreak of war in a distant land or the humanitarian needs that arise from a natural disaster.

The Beatles ... Four Lads Who Shook the World

Do You Want to Know a Secret? The Beatles are still Here, There and Everywhere...even after breaking up in 1970! The Beatles '1' album, released in 2000, is the biggest selling album of any artist in the first decade of the 21st century and The Beatles are the only artists to sell more than a million units every year since 1990! That's really Something! Current students at Lawrence have the opportunity to study the exciting '60s through the sounds of The Beatles, and you can relive it too! The Word is love and All You Need Is Love to attend this exciting presentation by a true Beatleholio. It Won't Be Long before Reunion Weekend is here; June is not such a Long, Long, Long way off. Take this Magical Mystery Tour of The Long and Winding Road paved by The Beatles. Turn off your mind...relax...and float downstream...it's just A Day in the Life. Help is on the way! The End.

SESSION C

From Scriptorium to Screen: Studying Illuminated Manuscripts in the Digital Age

The extraordinary changes in the information technology of our time would seem to make medieval manuscripts look all the more antiquated. Far from it. Rather, the Internet Age has been a boon to the study of illuminated manuscripts, enabling scholars greater access to manuscripts than before and also changing the way we think about them as a whole, helping us to understand just how complex they truly are. By looking at recent advances in digital humanities and at the manuscripts themselves, this class will explore how the digital age is reshaping our understanding of the past.

Benjamin C. Tilghman '99, assistant professor of art history

Wriston Art Center Auditorium

Voices of Change

This program tells the story of the Civic Life Project at Lawrence. This project explores the role of documentary video in public life, the way in which new digital media is reshaping communities and civic life, as well as the potential of video as a medium of democratic engagement. Stories include sex trafficking, homeless veterans, the disparity in the prison system, dementia and bullying of teens in the LGBTQ community. There will be time for Q & A.

🎵 Exploring the Brombaugh Organ

Come celebrate the 20th anniversary of the installation of the Brombaugh organ in the Lawrence Memorial Chapel. Among possible builders for a new organ, the Canadian, Karl Wilhelm, was considered, but the contract went to the American builder, John Brombaugh, a pioneer in the organ reform movement. This organ was a gift to the university from the late Margaret Miller Gilson through Miller Group Ltd. of Appleton. Others contributed funds for a complete renovation of the stage, along with proper humidification. This world-class instrument has been featured on Minnesota Public Radio's *Pipedreams*, three CDs have been recorded on it, and it was the featured instrument at the 1997 convention of the American Guild of Organists Region Six.
